The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the claim recitation setting forth the curtain track adjustment assembly as comprising a winch fixedly located on one side of a window including a crank, an upper cap, a brake paw, a spring, an axle, a ratchet gear, the crank being fastened to an annular flange extended upwards from the upper cap and having one end attached to a handle bar, the upper cap being fastened to a bulged rim located in the center of a body, the annular flange having a notch on one side, the upper cap having an opening on one side to receive the brake paw, the brake paw having a stub on one side to couple with the spring, the axle having a bottom end coupling with a bearing and a top end running through the ratchet gear, a steel cable having one end fastened to the axle of the winch, an anchor dock fixedly located on the other side of the window having a fastening member fastened to the other end of the steel cable, wherein the crank is turnable to anchor the brake paw on the ratchet gear through a restoring force of the spring to control and adjust the length of the steel cable, all of which is not disclosed nor fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
